gene C1 protein - tomato yellow leaf curl virus
C;Species: tomato yellow leaf curl virus
C;Date: 06-Jan-1995 #sequence_revision 06-Jan-1995 #text_change 09:Jul-2004
C;Accession: S39211
C;Accession: B39211
R;Noris, E.; Hidalgo, E.; Accotto, G.; Moriones, E.
submitted to the EMBL Data Library, August 1993
A;Description: High similarity among the tomato yellow leaf curl virus isolates from the A;Reference number: S39209
A;Accession: S39211
A;Scatus: preliminary
A;Molecule type: DNA
A;Residues: 1-359 <NOR>
A;Cross-references: UNIPROT:P38609; EMBL:Z25751; NID:g433655; PIDN:CAA81026.1; PID:g4336C;Superfamily: tomato golden mosaic virus AL1 protein
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              A;Title: Nucleotide sequence evidence for the occurrence of three distinct whitefly-tranda; Reference number: JQ2326; MUID:94065670; PMID:8245859
